Whereas, on September 14, 2020, Governor Kay Ivey declared a state of emergency pursuant to the Alabama Emergency Act of 1955 with the expected and ultimate landfall of Hurricane Sally on September 16, 2020, at Gulf Shores, Baldwin County, Alabama. The provisions of the State of Emergency are in effect for sixty (60) days.

There has been widespread residential structural damage in Baldwin and Mobile counties.

The Alabama Home Builders Licensure Board has the statutory and regulatory authority over the homebuilding industry to include the requirements and issuance of licenses. Ala. Code Sec. 34-14A-1, et seq.

Based upon the widespread residential structural damage assessments and the authority granted to the Home Builders Licensure Board Executive Director, the Emergency Roofing Licenses provision of the regulations is hereby invoked pursuant to Ala. Admin r. 465-X-3-.04(7) and as authorized when the Governor declares a state of emergency.

The requirements for issuance of an emergency roofers license shall require completion of the application, the \$150 fee, proof of citizenship or lawful presence, and demonstrated proof of a bond meeting the requirements of Ala. Admin r. 465-X-3-.04(5)(a). The remaining requirements are waived.

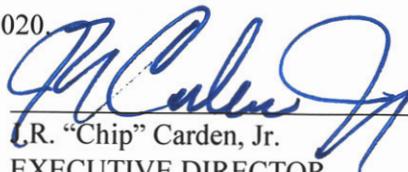

An emergency roofers license is valid for only sixty days from the date of the emergency declaration and shall not be renewed. All persons or businesses operating under an emergency license must go through the normal licensing procedures for a full roofers or other license after November 13, 2020.

The use of an emergency roofers license as issued by the State of Alabama Home Builders Licensure Board is valid in Baldwin and Mobile counties only at this time.

The action as allowed by the authority granted to the Executive Director pursuant to regulations may be amended to include additional counties within the duration of the emergency.

I am directing that measures be put into effect to issue emergency roofers licenses as efficiently and expedited as practicable.
